

Defoamer 530

GENERAL PURPOSE DEFOAMER

DESCRIPTION:

Defoamer 530 is a general-purpose defoamer. It is supplied as an organic liquid. Defoamer 530 is effective at any pH but is most efficient at pH levels below 9.0 and temperatures up to 140°F

GENERAL APPLICATIONS:

Defoamer 530 may be used continuously for foam control or slug fed for knockdown. The most cost-effective method and dosage should be determined for each system.

SAFETY & HANDLING:

Improper handling of this product can be injurious to workers. Observe all safety precautions shown on the label and in the Material Safety Data Sheet. Wear proper protective equipment listed on the MSDS. Follow the instructions of your KML Representative in the proper use of this product.

ADVANTAGES:

- Non-silicone based defoamer
- Effective over a wide pH range
- Concentrated product reduces dosage requirements
- Effective with wide range of paints and system configurations

Typical Product Characteristics

Appearance...Light yellow oily liquid
Density at 77°F (lbs/gal).....7.1
Flash Point.....>200°F

PACKAGING:

Defoamer 530 should be stored at 65 - 95°F. If frozen, warm to 120°F and mix.
