

## Heavy Duty Auto Floor Scrub (HDAFS)

**LOW FOAM AUTOMATIC FLOOR MACHINE DETERGENT FOR PAINT SHOPS**

### DESCRIPTION:

HDAFS is a water based cleaner designed to dissolve and remove the accumulation of high solids, 1K and 2K paint in and around Paint Booths. HDAFS is highly concentrated – low to non-foaming detergent and is designed to remove paint trackings with a single application when used in Automatic Scrubbers. HDAFS is also excellent on heavy build-ups of grease and oil.

### GENERAL INSTRUCTIONS:

For use in floor scrubbers, dilute 1:10 with water. If floor is rinsed well with clean water, no neutralizing rinse is needed. For use on porous surfaces or heavy traffic areas, HDAFS may need to be used in a heavier concentration. Rinse with fresh water.

### ADVANTAGES:

- Highly concentrated, may be diluted with water
- One coat application designed specifically to dissolve paint trackings that accumulate on paint shop floors
- Will not generate foam if introduced into a paint sludge system
- Will not leave a residue after drying if used as directed.

### Typical Product Characteristics

Appearance.....	Clear, Colorless Liquid
Odor.....	No Appreciable Odor
pH of Product .....	13.3
Lbs. per Gal. ....	9.1
VOC (lbs./gal) .....	0.6
Packaging .....	55 Gallon Drum 5 Gallon Pail

### SAFETY AND HANDLING:

Improper handling of this product can be injurious to workers. Observe all safety precautions shown on the label and Material Safety Data Sheets. Wear proper protective equipment listed on the MSDS. Follow the instructions of your Representative in the proper use of this product.
