

Machine Parts Cleaner PS 1411

PAINT EQUIPMENT SOLVENT CLEANER

DESCRIPTION:

PS 1411 has a flash point of 105° F. This solvent cleaner is designed for cleaning paint equipment with much less danger of fire, due to the high flash point. The solvents in PS 1411 also present a reduced health risk to workers. PS 1411 is capable of removing most paint technologies.

USE INSTRUCTIONS - AUTOMATIC SPRAY EQUIPMENT:

PS 1411 can be sprayed on the equipment using a low-pressure pump. Areas with a heavy build-up will require some wiping with a solvent soaked cloth.

PAINT HOSES, GUNS, HARDWARE:

For best results, place hoses, guns and hardware in a container filled with PS 1411 for 10 to 20 minutes. Remove the parts and wipe clean with a cloth.

MISC. EQUIPMENT OF PARTS:

Place miscellaneous equipment or parts in a tub equipped with a cover. Parts may be allowed to sit overnight. PS 1411 may be re-used in these applications.

ADVANTAGES:

- Removes most paint technologies
- Rapid flash off
- No residue left on equipment
- Higher flash point reduces fire risk
- Compatible with paint detackification operations

Typical Product Characteristics

Appearance	Clear Liquid
Odor	Solvent
Weight per US gallon	6.96 lbs./gal
Flash Point	105° F
Packaging	55 Gallon Drums 440 Gallon Totes

SAFETY AND HANDLING:

Improper handling of this product can be injurious to workers. Observe all safety precautions shown on the label and Material Safety Data Sheets. Wear proper protective equipment listed on the MSDS. Follow the instructions of your KML Representative in the proper use of this product.
