

Pearl Sheen

AUTO, TRUCK & BUS WASH

DESCRIPTION:

Pearl Sheen is an Auto, truck, and bus wash with specialized ingredients to enhance sheeting of water and deposit a monomolecular film designed to leave a luster and shine to the finish. It is a moderate to high foaming product that will remove all road soils as well as shop soils from the production line. Pearl Sheen is a high solids (concentrated) material for efficient, economical service.

USE INSTRUCTIONS:

For use in brush, skirt, or spray washes. Pearl sheen, being exceptionally mild, is also excellent for hand washing applications. Rinses easily with cold or warm water. The sheeting action speeds drying, therefore hand toweling becomes unnecessary.

SAFETY AND HANDLING:

Observe all safety precautions shown on the label and in the Material Safety Data sheet. Wear proper protective equipment listed on the MSDS. Follow the instructions of your Representative in the proper use of this product.

ADVANTAGES:

- Rapid sheeting action
- Shine lasts for extended periods before removal
- Film resists dirt and soil. Acts as a barrier to prevent adhesion to the painted surface
- Unique formulation designed to be easily rinsed with cold, warm or hot water

Typical Product Characteristics

Appearance	Clear, viscous liquid
Odor	Characteristics detergent
pH	8.5
Sp. Gravity	1.03
VOC (lbs./gal.)	0.06
Flash Point	None

STORAGE:

Pearl Sheen should be stored at room temperature and should be protected from freezing.
