

Stainless Steel Cleaner SS409

PAINT SHOP CLEANER

DESCRIPTION:

SS409 is an acid cleaner designed to remove paint pigmentation, mineral deposits, and water spots from the paint spraybooth walls.

USE INSTRUCTIONS:

SS409 should be used as received on stainless steel surfaces. Apply directly onto dry surface. Use a booth brush with handle to apply. Apply from bottom up using a side-to-side motion with agitation. SS409 does not require a rinse with fresh water.

SAFETY AND HANDLING:

SS409 should be stored away from strong oxidizing agents. Protect from freezing.

Improper handling of this product can be injurious to workers. Observe all safety precautions shown on the label and Material Safety Data Sheets. Wear proper protective equipment listed on the MSDS. Follow the instructions of your KML Representative in the proper use of this product.

ADVANTAGES:

- Contains no harsh solvents
- Highly concentrated one coat application
- Designed to remove paint pigmentation and mineral deposit residue that tarnish steel.
- Designed to leave surface with a high gloss.
- Safe for use on stainless steel and galvanized steel
- Will not leave residue after drying
