

Super Strip

(SS, SS-L, SS-TBF, SS-BC)
NO SCRUB FLOOR STRIPPER

DESCRIPTION:

When you want nothing but the very best, ask for Super Strip, our no scrub stripper. Super Strip is specially formulated with a high butyl content to break down and emulsify the new cross-linked finishes with no scrubbing or brushing. Its penetrants actually melt away multiple layers of wax build-up and allow them to be easily rinsed away. Super Strip saves time and reduces maintenance costs with its single application stripping power. Super Strip even deodorizes while it works. Super Strip is fast and easy. All you do is mop. Super Strip does all the work. Super Strip is remarkable. Super Strip versions L, TBF, and BC have been formulated for assembly plants with individual needs as a chemical constituents. KML is committed to giving customer the right product and has varied the formula for this versatile cleaner accordingly.

GENERAL USE INSTRUCTIONS:

Super Strip is completely safe on asphalt, rubber or vinyl tile, linoleum, cork, magnesite, terrazzo and wood floors. For most applications, dilute Super Strip 1:10 with water and spread evenly over the floor. Allow to stand 10-15 minutes and then pick-up with Wet Vac or floor mop. If floor is rinsed well

with clean water, no neutralizing rinse is needed. For extremely old finishes or heavy build-up dilute Super Strip 1:3 with water and follow instructions above.

ADVANTAGES:

- Saves time and money in maintenance costs
- No scrubbing.....EVER
- Completely strips in one application
- Completely safe on asphalt, rubber or vinyl tile, linoleum, cork, magnesite, terrazzo and even properly varnished wood floors
- Deodorizes as it strips

<u>Typical Product Characteristics</u>	
Formula ...With or without Ammonia	
pH	< 12
