

# Vinyl Dressing VD269

## REJUVENATOR FOR TIRES & VINYL

### DESCRIPTION:

Vinyl Dressing is for Auto/Truck & Bus detail shops and Auto/Truck and Bus wash facilities. Vinyl Dressing penetrates deeply into the rubber or vinyl replacing lost plasticizers, thereby replenishing the suppleness of the material. Removes crazing and cracking and leaves a long lasting shine. Vinyl Dressing is highly concentrated and single applications are usually sufficient.

### USE INSTRUCTIONS:

Spray or wipe onto surfaces to be treated. Make sure to wet all surfaces. Allow sufficient time for material to penetrate and soak in. Wipe excess off with clean cloth.

### SAFETY AND HANDLING:

Observe all safety precautions shown on the label and in the Material Safety Data Sheet. Wear proper protective equipment listed on the MSDS. Follow the instructions of your Representative in the proper use of this product.

### ADVANTAGES:

- Rapid penetration
- Shine lasts for extended periods before loss
- Film resists dirt and soil
- Unique formulation designed for removal of crazing and cracking and protection from further aging
- Concentrated

### Typical Product Characteristics

Appearance ....	White Viscous Liquid
Odor .....	Bland
pH .....	8.5
Sp. Gravity .....	1.01
VOC .....	0.12
Flash Point .....	None

### STORAGE:

Vinyl Dressing should be stored at room temperature and should be protected from freezing.
